PUB LOG

PUB LOG provides the user with Federal Logistics Information Service (FLIS) data on four National Stock Number (NSN) searchable based products, Characteristics (CHAR) data, Demilitarization (DEMIL) codes, Non-NATO Master Cross Reference (MCRD) data, Management Data Interchangeability and Substitutability (MD I&S) data and two publications, FLIS procedures manual and the H-Series data

Media

DVD: Consolidates on to one disk what was once stored on six different disks, with six different subscriptions

Queries

Interactive: Allows users to search FLIS data on DVD. Searches can be made on part numbers, supplier, item name, characteristics, NSN, Federal Supply Class (FSC), Item Name Code (INC) or Commercial and Government Entity (CAGE) Code

Batch: Allows users to process multiple queries and run them simultaneously.

PUB LOG Characteristics Search: Is used to identify and search on specific attributes (i.e. characteristics)

PUB LOG Focal Points

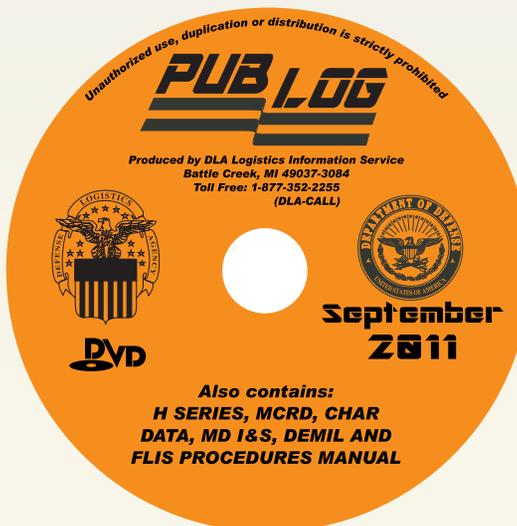

A list of service/agency publication focal points can be found at the PUB LOG website:
www.logisticsinformationservice.dla.mil/publog.asp

Service/agencies who wish to provide PUB LOG to their contractor support staff must contact the appropriate focal point, also available at this site

For PUB LOG subscription information visit:

www.logisticsinformationservice.dla.mil/ordrinfo.asp

Please use the above site to subscribe, change, or cancel your PUB LOG subscription

Quick Facts

- Available to the U.S. Government, other foreign national customers and Private Sector contractors including Manufacturers and Vendors, and Foreign Military Sales (FMS)
- Provides non-restricted non-proprietary FLIS data
- Windows capable (XP PRO, VISTA, Win 7)
- Provides real time data through smart links
- Allows customers who do not have access to FED LOG to access select information from FLIS
- Supports batch processing, Standard Query Language (SQL) inputs and program interfaces to other systems
- PUB LOG updated on a monthly basis
